## Mission

To work in a challenging and stimulating environment with opportunities for future growth and advancement and where I may be able to apply my knowledge, experience and creativity in order to devise solutions and achieve success on a business as well as a personal level.

## Personal Attributes

- Extremely goal and success orientated with a strong desire to learn, achieve and take on new responsibilities.
- Possesses a strong passion and creativity for design and unique solution development.
- Thrives on high pressure situations/opportunities.
- Creative thinker towards unique branding, corporate identity and solution development.
- Self taught in several aspects of design, development and software applications.
- Skillful in dealing with clients, customers and conflict management.
- Confident and strong team player with plenty of initiative, not afraid to take the lead.
- A flexible team player, willing to take steps back from personal goals for the benefit of the organization and other team members.
- Strong understanding of business and managerial strategies and market research methodologies.
- Fluent in multimedia, graphical and HCI concepts and methodologies as well as Usability/GUI analysis, development and testing including print, scan, color and file compression technologies.
- Possess a global, open minded and broad, perspective, respect and understanding on the world from a very international up-bringing and education.

## Achievements

- Co-responsible for the founding of the Center of Excellence for RIA's and the development of Web 2.0 and RIA development.
- As project leader and designer, I have independently and successfully designed, developed and launched some 50+ websites for small businesses as well as large international organizations.
- Responsible for establishing a new design and internet department under a parent company.
- Notable clients I have worked with while with Atos Origin include **Justitie**, **NLJUG**, **Dimpact!** and **Autotaalglas**.
- Notable clients I have worked with independently include **Volvo Cars North America**, **NASCAR Motorsports**, **Volvo IPD USA**, **Volvo S40 Racing USA** and **Ford Motor Company**.
- As an identity consultant, I have, on several occasions designed successful corporate brands and identities for new and existing companies which have provided and improved their image and turnover.
- Coached and motivated a youth basketball team bringing the team to the playoffs.

## Work Experience

- 04.08 – 06.09 **Atos Origin Nederland B.V. Groningen NL**, Software Engineer  
I have worked on numerous projects during my time at Atos Origin. My responsibilities have included developing Java based software applications for internal and external projects and clients. My knowledge and experience in multimedia design and development have enabled me to migrate towards developing and consulting on Web 2.0 solutions, focusing mainly on RIA's. I have been heavily involved in the founding of the CoE RIA within AO's Emerging Technologies sector; specializing in Adobe Flex and AIR solutions.
- 10.08 – 11.08 **Dienst Justitiële Inrichtingen Veenhuizen NL**, Software Engineer  
Responsible for developing an independent Intranet system based on the Joomla! 1.5 framework which required custom functionality, security and implementation of a unique design which kept to the organization's image and brand.
- 05.08 – 10.08 **Dimpact! Several locations NL**, Frontend Designer  
As well as designing an efficient and intuitive web GUI for the digitization of municipal products and services for the participating municipalities, I also was responsible for developing a standalone and intuitive Java based CSS generator to be delivered with the final Dimpact! package for later, in-house style changes.
- 12.04 – 03.08 **AbsoluteB Groningen NL**, Multimedia, Online Identity Consultant  
As a freelance designer, developer and identity consultant, I managed several graphical and online orientated projects for numerous international companies and organizations including **Volvo Cars North America, NASCAR Motorsports, Volvo IPD USA, Volvo S40 Racing USA** and **Ford Motor Company**.
- 11.02 – 06.03 **Desktop Service Bureau Houston, Texas USA**, Lead Designer, Developer, Project leader  
As Project Leader, I, along with a co-developer, founded and maintained the Desktop Service Bureau as the in-house design and internet department under parent company Desktop Digital Printing undertaking several projects through initial consultation till successful launch and post-launch maintenance.
- 12.01 – 11.02 **Infinity Pro Sports Houston, Texas USA**, Lead Graphic Designer  
My sole task was to know and understand the client, their requests, demands and objectives and convert them into a graphical and media rich web applications and websites to be utilized as a greater marketing scheme.
- 06.01 – 07.01 **Shell International (NAM) Assen NL**, Graphic Designer, Programmer  
Initially a two week summer job, I was quickly given the task to assist in the clean-up and re-development of an internal intranet system used within a quality control department known as "The Center of Excellence".

## Education

- 07.08 – 09.08 **Masterclass Java Programmer & Web Components**, Atos Origin, *Utrecht, NL*  
09.06 – 09.07 **Master of Business Administration**, Hanze Hogeschool, *Groningen, NL*  
09.00 – 05.04 **BSc. with Honors in Multimedia Computing, Minor in Computer Science**, Staffordshire University, *Stafford, UK*  
09.98 – 05.00 **International Baccalaureate**, Maartens College, *Groningen, NL*  
09.96 – 05.98 **IGCSE**, Maartens College, *Groningen, NL*
